## Love it. It's i30.

From the front cascading grille to the intense character lines and smooth rear lamps, every detail of i30 is a statement of perfection and beauty. Highlight the best moments of your life with the brilliance of i30.

## Versatile features

The spacious cargo space gives you peace of mind even when going to faraway destinations. The generous interior space, practical 6:4 rear seats, and user-oriented convenience features make every trip a joy.

A	B
C	D

### A. 5" LCD audio system

User-friendly, intuitive interface design allows easy operation of the high performance audio system.

### B. Electric parking brake (EPB)

The EPB system provides other functions like automatic release of the park brakes when the driver presses the accelerator.

### C. Wireless smartphone charging pad

Smartphones can be conveniently charged without a cable by simply placing them on the charging pad.

### D. Drive mode control system (eco, comfort, sport)

From maximising fuel economy in the Eco mode to being more reactive during dynamic driving in the Sport mode.

**1.4 T-GDi turbo engine**

138

Maximum power  
bhp/6,000 rpm

242

Maximum torque  
Nm/1,500 - 3,200 rpm

## Smart Performance

The advanced high strength steel body frame conveys the stability and safety that are fundamental to driving. Power performance, unabated dynamics, and fast response discernible at regular speeds convey the thrill of driving every day. Meticulous convenience features demonstrate that driving can be comfortable and safe at all times.

**2-airbag system / Advanced high strength steel (AHSS)**  
53.5% application of Advanced high strength steel (AHSS) plates boost driving and collision safety. Two airbags — driver's seat, passenger's seat.

A	B
C	D

**A. Engine start/stop button**

Begin and end your journey with a simple push of a button.

**B. Rear parking assist system (RPAS)**

Ultrasonic sensors in the bumper detect obstacles and set off distance-differentiated alarms for safe parking.

**C. Hill-start assist control (HAC)**

Hill-start assist control (HAC) automatically holds the brakes to prevent the car from rolling back when starting from a hill.

**D. Rear-view display system**

Guidelines on the monitor screen show the expected vehicle trajectory based on the steering wheel position to assist parking on reverse.
